

Dylan Summerville (Dylan Summerville)

Letter of Support for West River Dairy Expansion

Vendor of Riverview Dairy

Subject: Support for West River Dairy Expansion

My name is Dylan Summerville Owner of Summerville Electric based out of Breckenridge MN. We currently have two dairies owned and operated by Riverview in our county. I am writing here today for my support for West River Dairy Expansion.

In working with Riverview LLP through the years, from wiring new facilities to daily service work they have been a great customer to work for. They value their employees within Riverview and truly value their outside relationships whether they be vendors, local farmers, neighbors and the local communities. They are very proactive in their daily operations to make their dairies efficient, modernized and immaculately clean. Working alongside them firsthand makes it clear that their commitment and dedication to their facilities do not go unnoticed. They work hard to keep these spaces safe, well-maintained, and accountable--reflecting values that many in our community appreciate and rely on.

Riverview has been a huge partner with Summerville Electric, not only helping our operation for Electrical, but has helped our business grow. In working with them it has allowed us to find other ways to grow our business such as providing services within their daily operations and by starting other businesses and employing additional people. Working with Riverview, they maintain high expectations and strong standards—not only for themselves, but for everyone around them. These core values have helped strengthen not only their own work, but also the people they collaborate with, including vendors, local farmers, and the surrounding communities, making all of us stronger and better together.

Riverview is always looking at the economic impact they can make on a community. They are very involved in community actions, and very actively looking to employ residents to contribute to their dairy and farming operations. Riverview embraces opportunity for those around them and focuses on the word team (Community). I firmly believe the West River Dairy expansion will continue to reflect the same level of care, professionalism, and positive impact they have provided and will continue to strive for within their operations.

Sincerely,

Dylan Summerville
