

## Cory Skaurud

We have been working with River View for 6 years now. Since the very beginning they have been an outstanding company to be involved with. They are made up of very smart, passionate, and forward thinking people. Their company is always looking at ways to be more efficient and sustainable with their resources. They are willing to change their operations in ways that others wouldn't in order to build their dairies for a sustainable future. All of their locations that I have visited are always in a neat and clean order. Community involvement is a big part of their philosophy, they provide opportunities and economic benefit for surrounding neighbors and communities. If there is anyone you want building more dairies in MN, River View should be at the top of the list. I fully support the West River Expansion. Thank You
