

# Jared Wohlers

Minnesota Pollution Control Agency  
Attn: Charles Peterson

I am a local resident to the Morris area. I attended the public meeting hosted by the MPCA yesterday evening. I found the process to be informative and thank the MPCA for providing the opportunity to attend. I have reviewed the EAW material and Feedlot application. I found the material to be factually sound and in alignment with the conversations and clarification provided by the MPCA yesterday evening. Based on the facts, understanding the process and the public meeting hosted by the MPCA I am supportive of this project. An EIS is not needed for the proposed West River Dairy Expansion.

Thanks,

Jared Wohlers
