

Logan Tosel

As a local business owner I have had the opportunity to do work for Riverview the past year. My personal experience has been nothing short of exceptional with them. The mentality that I have come up with is if you do your job they'll do there's. I personally think that we can look at the West River Expansion the same way. The integrity of the company gives me confidence that they will uphold regulations to protect their neighbors, community, and natural resources. I support the West River Expansion.
