RE: Riverview LLP, West River Dairy Expansion in Stevens County MN.

Dear:

Operations like Riverview's create consistent economic activity that supports local jobs, drives investment, and allows businesses like ours to grow and reinvest in our communities.

I am the president and CEO of a community bank in Northeast South Dakota. Riverview has dairies within 30 miles of our bank; we have several customers that are able to expand and exist because of the presence of Riverview. I have been on several of their dairy properties and find them to be very professional and extremely clean and well maintained.

The proposed expansion represents a meaningful economic benefit to the region. It will generate demand for local vendors, support both construction and long-term employment, and contribute to the vitality of rural communities that rely on agriculture.

From our direct experience, Riverview is a professional and reliable partner that contributes positively to the communities where it operates. Their presence strengthens the local economy and supports a broad network of agricultural and service-related businesses.

Projects like this are essential to maintaining a competitive and sustainable rural economy in Minnesota as well as South Dakota. Continued investment in agriculture ensures that local businesses can continue to provide jobs, services, and economic stability close to home.

The state environmental review process is rigorous and sufficient. I respectfully encourage your support and approval of this important project.

Sincerely,

Jeffrey J Davis
President - CEO
