

General information

Public comment period begins: June 5, 2026

Public comment period ends: June 19, 2026

The Minnesota Pollution Control Agency (MPCA) Commissioner has made a preliminary determination to certify the referenced project, with conditions, and has preliminarily determined that the project will satisfy the antidegradation standards in Minn. R. 7050.0265.

Name and address of Applicant: Bob Simons City of Bloomington 1800 West Old Shakopee Rd Bloomington, MN 55431	Project name and location (county): Nine Mile Creek Corridor Renewal Project Hennepin County	MPCA contact person: Joshua Prososki Resource Management and Assistance Division Minnesota Pollution Control Agency 714 Lake St, Ste 220 Detroit Lakes, MN 56501 Phone: 218-846-8125 Email: joshua.prososki@state.mn.us
Federal Permitting Agency: Samantha Coungeris U.S. Army Corps of Engineers 332 Minnesota St, Suite E1500 St. Paul, MN 55101		

A draft Section 401 Water Quality Certification with antidegradation determination is available for review on the MPCA Public Notices webpage at <http://www.pca.state.mn.us/publicnotices> or at the MPCA office address listed under the MPCA contact person. The MPCA will mail or email a copy of the draft certification upon request. Comments, petitions, and other requests must be received at the MPCA in writing on or before the public comment period end date and time identified above.

Major Watershed: #33 - Lower Minnesota River

Description of Issuance for 401 Water Quality Certification for Nine Mile Creek Corridor Renewal

A large rain event in the 1980's cut off a meander in Nine Mile Creek, straightening a portion of the stream channel. The city of Bloomington is proposing to restore the meander and fix an eroded stream bank further upstream as a part of a large-scale improvement project. 240 linear feet of streambank will be stabilized via anchored toewood, erosion control blankets and native vegetation planting. A slight channel re-alignment away from the eroded streambank will occur to prevent future erosion. Approximately 450 linear feet of existing stream channel will be filled and 900 linear feet of meandered channel created. Several cross vanes will be installed in the new meander to reduce future erosion. Floodplain benches will also be created in the meander area.

Procedure for public participation

As stated in Minn. R. chs. 7000 and 7001, there are three formal procedures for public participation in the MPCA's consideration of this matter. Interested persons may:

- (1) Submit written comments on the draft certification and antidegradation determination.
- (2) Petition the MPCA to hold a public informational meeting.
- (3) Petition the MPCA to hold a contested case hearing.

Submitting written comments

To submit comments or petitions to the MPCA through the mail or online you must state:

- (1) Your interest in the request for 401 water quality certification or the draft 401 water quality certification.
- (2) The action you wish the MPCA to take, including specific references to the section of the draft 401 water quality certification you believe should be changed.
- (3) The reasons supporting your position, stated with sufficient specificity as to allow the MPCA to investigate the merits of the position.

Public informational meeting

A public informational meeting is an informal meeting during which interested persons can ask questions concerning the proposed facility. MPCA staff will be present to provide information. If an interested person would like the MPCA to hold a public informational meeting, the person should include all information identified above and in addition include a statement of the reasons the person desires the MPCA to hold a public informational meeting and the issues that the person would like the agency to address at the public informational meeting.

Contested case hearing

A contested case hearing is a formal proceeding before an administrative law judge empowered to advise the MPCA regarding issues of fact. As described in Minn. R. 7000.1800, persons who submit petitions for a contested case hearing must also state the issues they propose to address in a contested case hearing, the specific relief requested or resolution of the matter, and the reasons (which may be in the form of proposed findings) supporting an MPCA decision to hold a contested case hearing. Failure to comply with these rules exactly may result in a denial of the request. To the extent known, the petitioner may also submit a list of prospective witnesses to be called at a hearing, a proposed list of publications, references, or studies to be introduced at a hearing and the approximate time required for the petitioner to present the matter at a hearing. The decision whether to hold a contested case hearing will be made under Minn. R. 7000.1900.
