

Deirdre Schwartz

I have reviewed the redistributing maps and want to express concern over extending District 2 into the South Anchorage Hillside beyond the military boundary as shown in Map 8 and others. Eagle River and the non-military areas of Anchorage Hillside are very different politically, demographically, and environmentally. I would not expect an elected Assembly member to be able to fairly represent such diverse interests and priorities.

Please do not dilute representation for either community by combining these disparate areas.
