

Katie Nolan

I am hesitant to endorse any map as these are not yet set in stone; however, the version submitted by Anchorage Action and the A & B versions of Denny Wells map are the only choices for the Anchorage Hillside. The Anchorage Hillside is a compact, cohesive and well-established area represented by the Hillside District Plan for well over a decade. It has little in common with Eagle River, and attempts to fly over the mountains and combine the two areas are obscene. Unlike the Anchorage Hillside, Eagle River has their own Parks & Rec department and their own road service area. Please ensure that the Anchorage Hillside is kept in one area, united as we have always been. Thank you.
