

# Catherine Giessel

Dear Assembly members,

I am writing in SUPPORT OF MAP 11v2.

I believe it keeps well-identified neighborhoods intact, which is very important.

A second choice is MAP 6v2.

This is very much like our Assembly districts are today. It keeps the Hillside District Plan areas together and also seems to align with Community Council areas, which makes sense.

I am OPPOSED to combining any portion of the Anchorage hillside with any portion of Eagle River.

Thank you for your diligent work on this important issue.

Best regards,

Cathy
