

Our NM Waters Petition - 1089

Dear Water Quality Control Commission: I am writing today to support the proposal to designate over 125 miles of waters along the Rio Grande, Rio Hondo, and Lake Fork, and in the headwaters of the Jemez River as Outstanding National Resource Waters (ONRWs). New Mexico's \$1.9 billion outdoor recreation industry is fueled in large part by the popularity of recreational activities that take place in record numbers within these three exceptional watersheds. This ONRW petition has the formal support of dozens of Tribes communities, organizations, and outdoor lovers who depend on these rivers for their traditions, livelihood, and joy. The Rio Grande is a mainstay of our outdoor recreation economy — providing opportunities for fishing, hiking, and whitewater rafting and supporting numerous species of wildlife. The Rio Hondo and Lake Fork wind their ways through one of New Mexico's most popular outdoor recreation destinations, which each year attracts thousands of hikers, as well as skiers and anglers. The headwaters of the Jemez River draw high numbers of visitors every year to hike, camp, fish, hunt, horseback ride, cross-country ski, mountain bike, observe wildlife, and view the night skies. Protecting these irreplaceable waters with ONRW designations will translate into tangible economic gains for the surrounding communities and for the state of New Mexico. I urge the state's Water Quality Control Commission to formally approve the ORD's ONRW petition during the June 14, 2022 hearing. Thank you,

June 13, 2022

Dear Water Quality Control Commission:

I am writing today to support the proposal to designate over 125 miles of waters along the Rio Grande, Rio Hondo, and Lake Fork, and in the headwaters of the Jemez River as Outstanding National Resource Waters (ONRWs). New Mexico's \$1.9 billion outdoor recreation industry is fueled in large part by the popularity of recreational activities that take place in record numbers within these three exceptional watersheds. This ONRW petition has the formal support of dozens of Tribes communities, organizations, and outdoor lovers who depend on these rivers for their traditions, livelihood, and joy.

The Rio Grande is a mainstay of our outdoor recreation economy — providing opportunities for fishing, hiking, and whitewater rafting and supporting numerous species of wildlife. The Rio Hondo and Lake Fork wind their ways through one of New Mexico's most popular outdoor recreation destinations, which each year attracts thousands of hikers, as well as skiers and anglers. The headwaters of the Jemez River draw high numbers of visitors every year to hike, camp, fish, hunt, horseback ride, cross-country ski, mountain bike, observe wildlife, and view the night skies.

Protecting these irreplaceable waters with ONRW designations will translate into tangible economic gains for the surrounding communities and for the state of New Mexico. I urge the state's Water Quality Control Commission to formally approve the ORD's ONRW petition during the June 14, 2022 hearing.

Thank you,

The Our New Mexico Waters Coalition
