

## Shirin O'Gara

Please deny Mr. Roper's appeal to build a concrete batch plant in my community.

Mr. Roper has already failed to prove that his concrete batch plant will not adversely affect our neighborhoods. I am concerned for the health of my family and for my neighbors that live in close proximity to the site.

Mr. Roper did not notify the neighbors within one half mile of the site as required. He has continually amended his application and still can not show that the air quality will not be damaged by his plant.

Your mission is to protect the people New Mexico, please do your job.

Thank you,  
Shirin O'Gara
