

Daryl Lindsay

I believe this plant will be added value to not only Alto, but the whole Ruidoso community as well. There are a number of trucks (garbage, dirt, fuel, concrete etc.) that already travel this roadway, and in my opinion, will reduce some traffic. Also, in viewing Mr. Ropers plant in Carrizozo, they are a clean operator and take care of the property.

I've known Mr. Roper for a very long time. He was raised on a ranch north of Carrizozo and will do everything he can, and within his ability, to protect the area to the best of his ability.
