To Members of the New Mexico Water Quality Control Commission:

I stand with CCNS and HOPE in the DP-1132 petition for review before the NM Water Quality Control Commission.

I ask you to be accountable in your position as a Water Quality Control Commissioner to fully review DP-1132. It is of vital importance to have laws and regulations in place that safeguard our communities now and into the future.

I rely on CCNS and HOPE to provide information and opportunities to take action to challenge the issuance of DP-1132 before the NM Environment Department and the NM Water Quality Control Commission.
