

# Maia Duerr

To Members of the New Mexico Water Quality Control Commission:

I am writing because I disagree with the Hearing Officer's recommendation to the NMWQCC denying standing to Concerned Citizens for Nuclear Safety and Honor Our Pueblo Existence. Of all the individuals associated with Concerned Citizens for Nuclear Safety (CCNS) I rely on J. Gilbert Sanchez, Kathy Wanpovi Sanchez and Joni Arends to provide information for me to challenge DP-1132 for the 1963 old Radioactive Liquid Waste Treatment Facility and two new facilities that were permitted without the required public process for hazardous waste facilities.
