

# Daniel Romero

Daniel Romero

I write today to share my feelings of disappointment and disgust that the NM WQCC held a hearing during which the hearing officer recommended that CCNS and Honor Our Pueblo Existence (HOPE) should not have a legal standing in DP-1132. More upsetting is how this meeting took place during Holy Week! The people of Northern New Mexico are not available to attend or participate in public meetings during Holy Week!

My bloodline runs thick in Northern New Mexico and I have many friends and family members living and surviving here. Our water is our life. It is both unethical and inhumane to attempt to undermine the lives of my people. Stay true to your word and agreement and work with CCNS and HOPE to create a more stable and healthy future for the people of Northern New Mexico.

I Daniel Romero support standing for CCNS and HOPE in the DP-1132 petition for review before the New Mexico Water Quality Commission. I rely on CCNS and HOPE to provide information and opportunities to take action and challenge the issuance of DP-1132 before the NM Environment Department and NM Water Quality Control Commission.

Revoking their standing goes against federal precedence and doing what is RIGHT for all cases of this nature.
