Board Members

This letter is in strong opposition to the Advanced Clean Car Rules that are being proposed. I feel that the mandates in the proposed rules are going to far.

I don't think that we have the proper charging infrastructure in New Mexico (especially in rural areas). I also feel like electric vehicles are more expensive and unaffordable to many New Mexicans. More importantly, I don't think that a lot of New Mexicans are interested in driving Electric vehicles.

I think that market demand should drive the EV market.... Not mandates.

Please vote to oppose the adoption of the Advanced Clean Car rules.

Sincerely  
Pat Melloy
