- 1) I don't understand why the governor feels like she should decide what vehicle I have access to in NM.
- 2) I can't afford an EV
- 3) I know people who don't even have electricity
- 4) Im afraid there isn't enough electricity to serve an EV
- 5) I need a truck for my job. Why do we need less trucks?
- 6) Are we reducing emissions with this move?
- 7) I think EVs sound like a neat idea, but I don't agree that the state government should limit my access to other vehicles in order to try to make me buy one.
- 8) I don't believe the government should try to decide what is available for me to purchase
