Ernestina Mendez

My name is Ernestina Mendez Huerta, I am a mother Leader of Together for Brothers I address you with due respect and also ask for your valuable support for the deployment of zero-emission vehicles in NM, we need clean trucks such as school buses, medical insurance transportation, hospitals, garbage trucks, fire trucks, patrol cars, government vehicles, clean trucks from large companies such as maquiladoras, packing plants, in general from the entire NM industry and mostly in our public transportation. Having quality air is synonymous with a higher quality of life, healthy and beneficial to our families, and the following generations. Thank you very much for helping in the transportation sector.

Sincerely, Ernestina Mendez
