

## Ray BRANSON

NM does not need rules modeled after California. We need common sense rules that are beneficial to all citizens (both rural and urban). We need realistic goals to combat greenhouse gasses. This plan proposed by our Gov. Lujan Grisham is neither beneficial or realistic. When implemented this will drive away business and a lot of our current citizens because they will no longer be able to afford to live in the Land of Enchantment. To the citizens who do remain in this state it will become the -1-Land of Entrapment.-1-
