

David Sanchez

Hi I would like to let you know that I live in the Mountain View community with in 1 mile of this transfer station project and I can give you a lot of reason why this project is (not good) for the community and Albuquerque landfill. Concerns traffic,rodents,accidents,environmental,exc.list could go on and on it dose not make sene let all the other county's deal with there trash problem bernillo county has enough to deal with. I was not aware of this till a neighbor told me about this transfer station I know it's all about money for some one. Mountain View community was not notified of this project and in my opinion it is (no no no no no no we don't need it) here. Thanks
