

## Jeanette Gutierrez

As an Albuquerque South Valley Mountain View Resident of 55 years I am asking you to oppose the proposed Broadway Transfer Station located at 5520 Broadway SW. Though I do support recycling, I am deeply concerned about the future impact of this facility and the location. Mountain View is already overburdened, a mile from an elementary school, and traffic is heavily impacted. New Mexico has a lot of land, miles from schools and residential areas, I ask why here? My concern is very personal my children drive the Broadway highway into the city to work and school at UNM, they grew up here but when we talk about raising a family in the Mountain View area we ask is it going to be safe for the future generations? They deserve a clean and safe environment. I urge you to deny this permit. I pray you prioritize the safety of everyone's health and well being of the Mountain View Community.
