

Elaine Schenck

Good day. Thank you for opening this up for discussion. What are the alternatives? Why is this being routed to the South Valley? Why is it being routed onto a road where this additional traffic will only add to congestion in an already congested area? Why is this so close to an Elementary School? Would other citizens like this next to their children's Elementary School? I am confident that we wouldn't find this as an option in another area. It feels blatant to send this to an underrepresented area. This needs to be reviewed again in a very public forum for the interested parties, not via an email forwarded as an FYI. There needs to be a better logistical alternative. Thank you.
