

Maria Globus

This business does not belong here. It creates too much traffic. It is hard for me to even believe County officials allowed this to be considered here. I do not feel residents of Mt. View are being considered. It is too close to our community bringing so many trucks with questionable commercial trash. we are captive to very poor decision making on the part of the County. I am so disappointed by this feeling that our concerns, our needs, and our safety are of such little concern to our local government. The government and we pay for.
