

Jessamyn Young

Dear NMED

The application for the Broadway Waste Transfer Station must be considered within the context of a community that has already been saturated with polluting industry, where commercial trucks and heavy equipment clog the road constantly. If the Waste Transfer Station was to be the first, or one of the few, heavy industries in the area, there might be an argument for its approval. As it stands, the Mountain View Community has been very literally dumped on enough. Find another site for the Waste Transfer Station.

Deny the application for the Broadway Waster Transfer Station.
