

## Keegan Kloer

I write to ask for the application by Universal Waste Systems, Inc for a Solid Waste Facility Permit at Broadway Transfer Station to be denied. The area from South Broadway through San Jose down toward Mountain View is already heavily polluted, contains multiple super fund sites, and has a high volume of industrial traffic. This Solid Waste Facility would bring some 400 garbage trucks each day into the Mountain View Neighborhood, further increasing the pollution to the community, wear and tear to the roads, and risk dangerous traffic incidents on an already congested roadway. Mountain View does not need to serve as yet another dumping site for waste generated by corporations or by other counties. Please stand with the greater community in denying this Solid Waste Facility permit. Thank you!
