

Valerie Trask

As long-time members of the Mountain View community, my family and I are writing to express our strong opposition to the proposed waste facility in our neighborhood.

We are deeply concerned about the environmental impact of this project. The potential increase in light, air, water, and ground pollution poses a significant threat to the health and well-being of every living creature in our community. Transporting tons of waste through our streets daily will negatively affect our quality of life and the dignity of our local residents. We urge you to consider whether such environmental burdens are being distributed equitably across the city and county.

Thank you for reconsidering the approval of this facility and for protecting the future of our neighborhood.
