

LeRoy Vaughn

Hello my name is Leroy Vaughn and I've been a resident of mountain View for 60 5 years and all that time all I see is industries that come and pollute are lands and our water we have a chemical plant right across the street from a elementary school we have a city dump site not too far from where they want to make this transfer station we have a number of polluting industries in the area we have two sites the old GE plant and the old place where they used to soak the train track lumber that are no longer being able to be used the land no longer being able to use because of the pollution please help us keep our neighborhood safe we don't need another transfer station in this area thank you.
