

Rafael Lecuona

What part of NO are the data centers failing to understand? New Mexicans do not want Oracle's Project Jupiter taking our scant resources for their own profit. Also, we do not want AI surveillance and violations of our privacy rights. Oracle has proven to be dishonest and manipulative. Public regulators in New Mexico are failing to protect the state's interests. WE HAVE SPOKEN - DO NOT FORCE THIS UPON US - It will have negative political repercussions for those who defy the will of New Mexicans.
