

## Brenda Solis

I am trying to access the order regarding the hearing filed 8 5 26 and it will not open.

The public has a right to be at these hearings. Yucca should be made to understand that they do not control the situation. The Board is responsible to the People, not Yucca. To NM, not to Yucca.

I saw on NextDoor that this case did, in fact, get an extension? These needs to be widely publicized due to many people not being able to access this site.

I continue to oppose this application for the betterment of Santa Teresa.
