

Barbara Wisoff

I want my comment to go on the record with NMED for HJM 3. Do not delay protecting our health while harmful chemicals are permitted to move through water and human bodies. Delay and deregulation are crimes against humanity depriving us of safe drinking water while pay to play business deals continue and officials grift and self deal.

All PFAS, Perchlorate, HCl, Polycyclic Aromatic Hydrocarbons (PAHs), Energetic Explosives, RDX/HMX, Lead, Chromium especially hexavalent, and Cadmium must be tested for, identified to the public and removed from our groundwater and air. That means Project Ranger is harmful to life. Shut it down.

New Mexico is a corrupt weaponry manufacturing and testing sacrifice state. Enough already.

I am 69 and have a 3 year old and a 5 year old grandchildren here and I want them to grow up healthy without all the above toxicity.
