

JULIE wright

This is one of the most absurd waste of taxpayer dollars ever. How long did this project take? How much research and time went into this? You're really telling employers to take up to 40 minute breaks in the heat - when we live in the desert? Goodbye construction! How is the State of NM going to handle their road construction crews when they have to treat them like 5 year olds? How much cost will it be to have more management to observe their employees? I could go on and on. This is one of the dumbest things our government could come up with.
