

## Daryl Elrod

This has to be one of the stupidest things I've seen ! Work 15 minutes then break for 45 minutes? Won't take very long to break a lot of employers because their projects are so far behind ! There's quite a number of things on the market now to help keep outdoor workers cooler! It's obvious the brains behind this bill don't do much if any manual labor outdoors it seems! This is definitely a bad idea.
