

Victor Gamiz

1.) I OPPOSE EIB 25-11 (R) - Proposed New Regulation, 11.5.7 NMAC - Heat Illness and Injury Prevention.

2.) This regulation will financially hurt small businesses as they cannot absorb the cost of such a draconian government-imposed regulation.

3.) Trust Businesses for the care of their employees and allow regular breaks and rehydration during heat waves. They can rotate breaks to maintain productivity. Employee care is in their best interest.

4.) Again, I OPPOSE this regulation!
