

Dale Schueller

The proposed highly intrusive comical regulation means that in a standard day there is only 2-3 HOURS of productivity with 7-8 HOURS of leisure by the employee. Now I realize that this productivity measure is a HUGH AMOUNT for government employees and politicians, but in the real world EMPLOYERS take care of their employees BECAUSE IT IS IN THEIR BEST INTEREST. COMMON SENSE NEEDS TO RULE NOT OSHA, AND HAS WORKED MY WHOLE PRODUCTIVE LIFE, 60 + YEARS AT THIS POINT. OF COURSE HYDRATION IS EXTREMELY IMPORTANT, THERE IS NO ONE IN THE 'FIELD' THAT DOES NOT ALREADY KNOW THIS. IF MAKING NM A LAUGHING STOCK IS YOUR GOAL, YOUR MAKING A HELLUVA STATEMENT WITH THIS.
