James Kenney
Cabinet Secretary
NM-ED

Imagine Jim...sitting & waiting over at Tia Sofia (or whichever your favorite Santa Fe breakfast joint); and, as Sofia's midway thru prep'ing your huevos rancheros, the temp in her kitchen rises above 80 to 85 degrees (or whatever your heat-cap w/b) and so your half-cooked 'huevos' may have to sit unattended 45 minutes!!! Or maybe Tia Sophia will need to hire 2-3-4 chefs to do the job of one, to keep your patronage...which naturally puts her storefront & family business into extreme financial duress & ultimately, jeopardy.

Exponentialize Sir, this petty example across the panoply of New Mexico business & industry --- to our manufacturing plants; train yards; drilling & mining ops; road-reconstruction projects; home & office construction; restaurant preparation; food trucks; outdoor farmers markets, concerts & festivals ---and imagine, Cabinet Secretary Kenney, the colossal damage to our state's economy this OSHA-inspired rule will create.

Please Sir, RE-CONSIDER, and shovel this rule proposal into the dustbin of NM History.

Best & Thanx...PJS
