

Kara Wood

I oppose this rule because it will put an unnecessary hardship on many sectors of our economy. Particularly on small businesses like landscapers, lawn care companies, outdoor recreation (guides, river rafting companies, etc), maintenance and service companies, and anyone who provides services that occur primarily outdoors. The cost of paying employees for an hour and only allowing them to work 1/3 of the time will ruin the financial viability of many small businesses. Do not pass or implement this rule.
