Comments on EIB 25-11 (R) - Proposed New Regulation, 11.5.7 NMAC - Heat Illness and Injury Prevention: This proposal is absolutely insane and unrealistic. How is an employer supposed to operate his business and make any kind of profit to stay in business under this criteria when it will take 3 times as long to finish any project when the employee only works 20 minutes of every hour. This proposal is NOT based in reality and MUST NOT be passed. Also, where is the personal responsibility of the individual to do what is necessary to stay hydrated. DO NOT PASS.
