Defeat this proposal at all costs, this would negatively effect all of NM. I own a small (but successful) construction company in ABQ, this type of regulation simply makes the project more expensive. Also imagine the burdensome compliance/documentation this would cause on every business that does anything outside. Anyone that has ever owned a business would fight and oppose this ridiculous and over-reaching legislation.

Please only vote NO

EIB 25-11 (R)

Thank you for your time
