

Vincent Leyendecker

Do you work outdoors for a living? Have you ever worked outdoors in any capacity? If you have, you know what it is like on a hot summer day and how taking a break is not only a pleasant thing to do, but physically necessary thing to do to continue a healthy life. Be a Christian, a Jew, a Muslim, hell, be a human being and pass these necessary rules to protect workers from the people that do not know or appreciate what it is like to work outdoors for a living.
