

To the New Mexico Environmental Department:

I am writing to express my support for the air quality permit applications submitted by Yucca Growth Infrastructure, LLC for Project Jupiter. Southern New Mexico has worked hard to attract transformational investment, and I believe projects like this represent an opportunity to strengthen our economy while creating meaningful careers for local residents.

Major investments do much more than create jobs at a single facility. They generate opportunities for contractors, suppliers, restaurants, retailers, and countless other small businesses that support a growing regional economy. I appreciate the thoughtful work that has gone into this project and respectfully ask the Board to approve the requested air quality permits.

Sincerely,

A handwritten signature in blue ink, appearing to read "Marcela Fourzan", is written over a faint, light blue rectangular background.
