

Dear Chair and Members of the NMED:

I respectfully support the air quality permit applications for Project Jupiter.

Economic development is about more than today's jobs. It is about creating opportunities for young people to remain in New Mexico, helping small businesses grow, and strengthening communities for decades to come. Investments of this size have ripple effects that benefit suppliers, service providers, contractors, and families throughout the region.

I appreciate your consideration and encourage approval of the permits.

A handwritten signature in black ink, appearing to be 'S. Ortega', with a long horizontal line extending to the left.
