

To the New Mexico Environment Department Board:

Please accept this comment in support of Project Jupiter.

Our state has a long history of building complex infrastructure projects safely and responsibly. I believe Project Jupiter continues that tradition by bringing new investment, skilled jobs, and economic opportunity to Southern New Mexico. I appreciate the Board's careful review and respectfully support approval of the requested permits.

A handwritten signature in black ink, appearing to read 'Gustavo Garcia M.', with a stylized, cursive script.
