

Members of the Board:

Please accept this comment in support of Project Jupiter.

New Mexico has all the ingredients necessary to compete for advanced industries—our workforce, our energy resources, our location, and our entrepreneurial spirit. Projects like Project Jupiter help demonstrate that our state is prepared to welcome new investment while maintaining high environmental standards. I believe this project will provide meaningful opportunities for workers, local businesses, and future generations of New Mexicans.

Thank you for your thoughtful review.

A handwritten signature in black ink, appearing to read 'Jorge A. Soto', is positioned above the printed name.
