**Re: Public Comment in Support of Air Quality Permit Applications for Project Jupiter
(Yucca Growth Infrastructure, LLC)**

Members of the Environmental Improvement Board,

As a 5th generation New Mexico native and 3rd generation Realtor in the Doña Ana area, I am pleased to offer my support for the air quality permit applications submitted by Yucca Growth Infrastructure, LLC for Project Jupiter in Doña Ana County.

I was raised in Santa Teresa and went to elementary school in Sunland Park. I have personally witnessed the continued struggle with the infrastructure in those communities. I went to school under the ASARCO Smelter. They did not care about our air quality. I believe that Project Jupiter will enhance the infrastructure, protect our air quality, as well as create jobs.

My grandfather, Jamie Stull Sr., was a developer in the Las Cruces area and a County Commissioner for Doña Ana County. I was raised with his dedication to bettering our community. He led the charge to develop the much-needed health clinics in southern Doña Ana. I sat through meetings with the County Commissioners discussing the water issues back in the 1980s and 1990s. I believe Project Jupiter will accomplish better infrastructure for the Santa Teresa-Sunland Park area of Doña Ana.

Please allow Yucca Growth Infrastructure, LLC, for Project Jupiter, to move forward with the air quality permit applications.

Thank you for your consideration.

Respectfully,

Billie Haynie
Realtor
