

DEPARTMENT: MUNICIPAL PRESIDENCY
OFFICIAL REF. NO.: 0140/26
FILE NO.: PM/0140/2026
SUBJECT: AS INDICATED

Ascensión, Chihuahua, June 25, 2026.

TO WHO IT MAY CONCERN.-

I am writing to express my support for Project Jupiter, as I believe it offers significant benefits to our community.

Given our geographic location as a border region, the project will have a highly positive impact on several key areas. These include the economic benefits generated by local residents who are employed by the project. These jobs are of great importance for the construction and development of Project Jupiter. In addition, the project will promote greater cross-border economic activity, create opportunities for businesses and suppliers throughout Northwestern Chihuahua, and further strengthen binational integration, encouraging new investments in technology and infrastructure.

Based on the above, we express our support for and acceptance of Project Jupiter.

I urge the New Mexico Environment Department to approve this important project.

Thank you in advance for your attention to this matter. Please feel free to contact me via email at gobiernomunicipaldeascension@gmail.com or by phone at 636 699 0692 should you have any questions or require clarification.

SINCERELY
