

## Ada Ovitt

Approving this air quality permit would be an act of environmental racism towards the residents of Doña Ana County who are already subjected to poor quality air. Furthermore, Bloom Energy has a history of incorrect toxic waste disposal so it would be dangerous and negligent to approve the permit.

In order to give a fair opportunity for community input, an additional 60 days should be afforded for review and comment. If the permit isn't denied, a public hearing must be held in Santa Teresa in both English and Spanish, and participants must be given the option to participate virtually.

Thank you.
