

Salma Essa

I don't have a lot to say, nor am I the best with words. But we don't need that, we've been living without it and our planet has been thriving, now we are collapsing. This earth is worth more than any penny. We and every creature deserve to live in clean and thriving home. As we claim being the smartest creature on this earth, it is our duty to protect it for us , our children, and every living here.

"The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually."
