

Elaine Fragua

Job wise people should be given a second chance with our discrimination, there's too many with years of experience. Community needs to be more aware of things happening in the streets funding coming in should be used properly without corruption. Education is also 8portant also ng with training. Anybody making too much money should be able to invest into something. It's time for New Mexico to be able for New Mexicans to have opportunities to work.

Sincerely,

Elaine Fragua
