

Violet Kehl

I am a resident of Colorado, and I ask that we deny Yucca Growth Infrastructure's air quality permit. As we need to protect our environment from harm so we can continue to live in it and keep it safe. All animals and humans should work together to prevent more harm, and as people we should be helping hardest to do that. Children should get the privilege of growing up in a healthy environment, as our environment should get the privilege to grow.

The public should be given an additional 60 days to review and comment on the air quality permit so community members can participate equitably.

The air quality permit application should be denied outright given Bloom Energy's history of illegal dumping hazardous waste. Approving this permit would be government-sponsored environmental racism directed at residents of Doña Ana County.

If the permit is not denied outright, a public hearing needs to be held in Santa Teresa, in both English and Spanish, with an option to participate virtually.
