

Gabrielle Rael

The public deserves at least 60 days to continue to comment on this project. The air quality permit should be denied in light of Bernalillo's history of dumping. The exploitation of the New Mexico's people and land is unacceptable. Building one of the largest data centers in the world in an already overburdened community will continue to perpetuate environmental racism. The people of Dona Ana, New Mexico and the Earth will only be harmed by project Jupiter. Please protect us and our future.
